

# Refrigerant Leak Detector

## Features

- Extreme sensitive infrared sensor
- Contamination mode (smallest leak detection mode)
- Peak hold function / Auto sensitivity / alarm function
- LED tip light / mute function
- Low Battery Indicator
- Rugged Flexible Probe
- 3 adjustable sensitivity levels
- Automatic resets to background
- DC 3.7V rechargeable lithium battery
- Detects R-134a, R-410a, R-407c and R-22 etc

Model	ST316
Refrigerants	R-22, R-134a, R-404a, R-410a, R-507 (AZ-50) and all CFCc, HCFCs and HFCs
Sensitivity Levels	High 4 g / year (0.15 oz / year) Medium 7g / year (0.25 oz / year) Low 14g / year (0.5 oz / year) (Compatible with SAE J2791)
Response Time	Less than 1 second
Warm Up Time	30 seconds
Battery / Charging	DC 3.7V 1960mAh rechargeable lithium battery 6 hours of charging for 5 hours of use
Pump System	Yes
Flexible Probe Length	450mm
Dimension / Weight	184 x 70 x 40 mm / 435grams
Set Includes	Instruction manual , AC adaptor, Leak Test Bottle, Holster, Porex Filter(2pcs), Carrying case, Sleeve
